DESCRIPTION

MULTI PURPOSE CLEANER is a carefully formulated detergent cleanser designed for the rapid removal of oil, grease and others forms of contamination from bare concrete, painted floors, tiles and epoxy resin based flooring. It has outstanding cutting strength and will quickly and efficiently restore contaminated floors back to their original pristine condition.

USES: The general cleaning of all industrial flooring to rapidly remove dirt, oil and grease. Excellent floor degreaser prior to subsequent floor painting. Factory flooring, warehouses, gangways, food production areas, bakeries, dairies, breweries, engineering shops, printing shops, kitchens, sports changing rooms and all areas that demand high standards of housekeeping and hygiene.

APPLICATION: Dilute with water as required according to the degree of contamination that exists. Normal dilution strength being 1 :10 being one measure of MULTI PURPOSE CLEANER to 10 of cold water. Pour and spread onto the floor using a soft broom. Scrub the floor with a Washer Scrubber Dryer without the Vacuum Unit operating. Pour fresh water upon the floor and remove with the Washer Scrubber Dryer. For stubborn areas scrub with further amounts of fresh cleanser.

RINSING Best results are achieved using a Wet Vacuum Pick Up Machine or Washer Scrubber Dryer. Rinse well with cold clean water and remove all water from the surface. Repeat as necessary to leave a clean dry surface.

HEALTH AND SAFETY: Always read the Health & Safety Data Sheet prior to handling this product.

PRODUCT DATA

COVERAGE

For Painted Floors

5 Litres should cover up 300 square metres when using normal dilution ratio of 10 :1 with water.

For Bare Contaminated Concrete

5 Litres should cover up 200 square metres when using normal dilution ratio of 1 part MULTI PURPOSE CLEANER added to 10 parts of cold water.

SHELF LIFE

48 months in sealed containers

PACK SIZES

5 Litre or 25 Litre plastic bottles
